SKILLS

- SQL
- C++
- React JS
- Assembly Language
- C
- Python
- JavaScript
- OOP
- DSA

LANGUAGES

- English
- Urdu

PROFILE

Passionate computer science bachelor's student exploring the limitless possibilities of technology.

EDUCATION

BSCS, FAST NUCES, Lahore	2021 - 2025
ICS, Punjab College, Lahore	2017 - 2019
Matriculation, The City School, Lahore	2015 - 2017

PROJECTS

- **AI Chat Bot:** An AI-powered chatbot tailored to offer concise summaries of specific websites.
- **Photo Editing App:** Development of a photo editing application using Kotlin and Jetpack Compose to seamlessly enhance images.
- **Ecommerce Website:** Creation of a comprehensive eCommerce platform employing React for dynamic frontend interactions and a Database Management System for robust data handling.
- **Complaint Management System:** Project development in C++ adhering to the Software Development Life Cycle (SDLC) principles.
- **Snakes and Ladders Game:** Implementation of the classic snakes and ladders game utilizing advanced data structuring algorithms.
- **Catch and Score Game:** Development of a gaming application exclusively in Assembly Language.
- **Ride Management System:** Creation in C++ integrating Object-Oriented Programming concepts, simulating the functionality of ride-hailing services like Uber or Careem.
- **1024 Game:** Implementation of the 1024 game using fundamental programming principles.
